PRODUCT IDENTIFIER – AF-100-1 CODE – 298 DATE & VERSION – MAY 23, 2017 VERSION 01

Section 6. Accidental release measures

Personal	precautions,	protective eq	uipment and e	emergency pro	cedures
D ( ' (			1	г 1	• 1 / 11

Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).

## Methods and materials for containment and cleaning up

Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

# Section 7. Handling and storage

Precautions for safe handling

Wear gloves/protective clothing/eye protection/face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

## Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

Section 8. Exposure controls/Personal protection

**Control parameters (biological limit values or exposure limit values and source of those values)** Exposure limits: CAS 471-34-1 PEL-TWA – 15 mg/m<sup>3</sup> (total) & 5 mg/m<sup>3</sup> (respirable);

#### Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

#### Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Section 9. Physical and chemical properties				
Appearance, physical state/colour Tan grease	Vapour pressure Not available			
Odour Oil	Vapour density   Heavier than air			
Odour threshold Not available	Relative density 0.9-1.0			
pH Not available	Solubility Negligible			
Melting/freezing point Not available	Partition coefficient - n-octanol/water Not available			
Initial boiling point/range Not available	Auto-ignition temperature Not available			
Flash point175 °C (ASTM D 92)	Decomposition temperature Not available			
Evaporation rate Not available	Viscosity Not available			
Flammability (solids and gases) Not available	VOC Not available			
Upper and lower flammability/explosive limits Not available	Other None known			
Section 10. Stability and reactivity				
Reactivity				
Does not react under the recommended storage and handling conditions prescribed.				
Chemical stability				
Stable under the recommended storage and handling conditions prescribed.				
Possibility of hazardous reactions				
None known.				
Conditions to avoid (static discharge, shock or vibration)				
None known.				
Incompatible materials				
Oxidizing materials; etc.				
Hazardous decomposition products				
None known				

Energy efficiency since 1985	
	Section 11. Toxicological information
Information on the likely routes of exposure (i	nhalation, ingestion, skin and eye contact)
Causes mild skin irritation. Causes serious eye irr	ritation.
Symptoms related to the physical, chemical an	d toxicological characteristics
Skin irritation, redness, stinging, pain; Eye irritat	ion, redness, tearing.
Delayed and immediate effects (chronic effects	
Skin Sensitization – No data available:	
Respiratory Sensitization – No data available;	
Germ Cell Mutagenicity – No data available;	
Carcinogenicity - No ingredient listed by IARC,	ACGIH, NTP or OSHA;
Reproductive Toxicity – No data available;	
Specific Target Organ Toxicity — Single Exposu	re – No data available;
Specific Target Organ Toxicity - Repeated Exp	osure – No data available;
Aspiration Hazard – No data available;	
Health Hazards Not Otherwise Classified - No d	ata available;
Numerical measures of toxicity (ATE; LD <sub>50</sub> &	LC <sub>50</sub> )
CAS 471-34-1 LD <sub>50</sub> Oral - Rat - 6450 mg/kg;	
ATE not available in this document.	
	Section 12. Ecological information
Ecotoxicity (aquatic and terrestrial information	
No data available for the product.	
Persistence and degradability No data av	ailable
Bioaccumulative potential No data availab	le
Mobility in soil No data available	
Other adverse effects No data available	
	Section 13. Disposal considerations
Information on safe handling for disposal/met	
	in accordance with local, regional or national regulations.
