| 4. First-aid measures |   |  |  |
|-----------------------|---|--|--|
| Inhalation            | If symptoms develop move victim to fresh air. If symptoms persist, obtain medical attention.      |  |  |
| Skin contact          | Flush with cool water. Wash with soap and water. Obtain medical attention if irritation persists. |  |  |

| Eye contact  | Flush with cool water. Remove contact lenses, if applicable, and continue flushing. Obtain medical attention if irritation persists.  |  |  |
|--|---|--|--|
| Ingestion  | Not likely, due to the form of the product. Do not induce vomiting. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.  |  |  |
| Most important<br>symptoms/effects, acute and<br>delayed                     | Direct contact with eyes may cause temporary irritation.  |  |  |
| Indication of immediate<br>medical attention and special<br>treatment needed | Symptoms may be delayed.  |  |  |
| General information  | IF exposed or concerned: Get medical advice/attention. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Keep out of reach of children.   |  |  |
|  | 5. Fire-fighting measures   |  |  |
| Suitable extinguishing media   | Water fog. Foam. Dry chemical powder. Carbon dioxide.   |  |  |
| Unsuitable extinguishing media   | Not available.  |  |  |
| Specific hazards arising from the chemical                                   | During fire, gases hazardous to health may be formed.   |  |  |
| Hazardous combustion<br>products   | May include and are not limited to: Oxides of carbon.   |  |  |
| Special protective equipment<br>and precautions for firefighters             | Self-contained breathing apparatus and full protective clothing must be worn in case of fire.   |  |  |
| Fire fighting equipment/instructions   | In case of fire: Stop leak if safe to do so. Move containers from fire area if you can do so without risk.  |  |  |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials.  |  |  |
| General fire hazards   | Contents under pressure. Pressurised container may explode when exposed to heat or flame.   |  |  |
|  | 6. Accidental release measures  |  |  |
| Personal precautions,<br>protective equipment and<br>emergency procedures    | Remove sources of ignition. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Emergency personnel need self-contained breathing equipment. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.   |  |  |
| Methods and materials for<br>containment and cleaning up                     | Isolate area until gas has dispersed. Stop the flow of material, if this is without risk. Cover with plastic sheet to prevent spreading. Soak up with inert absorbent material. Following product recovery, flush area with water. Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS.  |  |  |
| Environmental precautions  | Do not discharge into lakes, streams, ponds or public waters.   |  |  |
|  | 7. Handling and storage   |  |  |
| Precautions for safe handling  | Obtain special instructions before use.<br>Do not handle until all safety precautions have been read and understood.<br>Keep away from heat/sparks/open flames/hot surfaces No smoking.<br>Wear appropriate personal protective equipment.<br>Provide adequate ventilation.<br>Avoid prolonged exposure.<br>Observe good industrial hygiene practices.<br>Wash thoroughly after handling.<br>When handling, do not eat, drink or smoke. |  |  |
| Conditions for safe storage,<br>including any incompatibilities              | Keep away from heat, open flames or other sources of ignition.<br>Store in a cool, dry place out of direct sunlight.<br>Store in a well-ventilated place.<br>Store away from incompatible materials (see Section 10 of the SDS).<br>Keep out of reach of children.<br>Store locked up.  |  |  |
|  | 8. Exposure controls/Personal protection  |  |  |
