

#### SAFETY DATA SHEET (SDS) Section 1 Identification

			Section	on 1. Identi	fication				
Product identifier BIO-CÂBLE									
Other means of identification 492									
Recommended	use and resti	ictions on use	STEEL CABLE I	LUBRICANT					
Initial supplier	Initial supplier identifierPROLAB TECHNOLUB INC. 4531 RUE INDUSTRIELLE, THETFORD MINES, (QUEBEC), G6H 2 CANADA TEL. (418) 423-2777 FAX : (418) 423-7619								
Emorgonov tolo	nhono numh	•							
Emergency telephone number/restriction on use Canada – CANUTEC 24 hour number 613-996-6666									
Section 2. Hazard identification Classification of hazardous product (name of the category or subcategory of the hazard class)									
			e of the category or	subcategory	of the hazard class)				
Flammable liqui									
Aspiration hazar		)							
Skin irritation (C									
Eye irritation (Ca			····· (Cata and 2) Car						
			ure (Category 3), Cen						
Information ele	ments (symb	ols, signal wol	ras, nazara stateme	ents and prec	autionary statements of the catego	ry/subcategory)			
Danger H227 Combustible liquid. H304 May be fatal if swallowed and enters airways. H315 Causes skin irritation. H316 Causes skin irritation. H316 Causes serious eye irritation. H336 May cause drowsiness or dizziness. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P264 Wash hands/nails/face thoroughly after handling. P271 Use only outdoors or in a well-ventilated area. P280 Wear gloves/protective clothing/eye protection/face protection. P301 + P310 IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. P302 + P352 IF ON SKIN: Wash with plenty of water. P332 + P313 IF SKIN irritation occurs: Get medical attention. P362 + P364 Take off contaminated clothing and wash it before reuse. P305+P331 IF NEYES, Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337 + P313 If eye irritation persists: Get medical attention. P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. P403 Store in a well-ventilated place. P405 Store locked up. P501 Dispose of dioxide, chemical powder agent and appropriate foam to extinguish. P403 Store in a well-ventilated place. P405 Store locked up. P501 Dispose of

Section 5. Fire-fighting measures									
Specific hazard	s of the haza	rdous product							
Specific hazards of the hazardous product (hazardous combustion products) Carbon oxides and other irritant/toxic gases and fumes.									
Suitable and unsuitable extinguishing media									
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish.									
	Special protective equipment and precautions for fire-fighters								
					r fire area without proper protection.	Firefighters should wear proper			
					Shield personnel to protect from ver				
	Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.								

### Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).

#### Methods and materials for containment and cleaning up

Avoid release to the environment. Collect spillage. Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

# Section 7. Handling and storage

# Precautions for safe handling

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Wash hands/nails/face thoroughly after handling. Use only outdoors or in a well-ventilated area. Contaminated work clothing should not be allowed out of the workplace. Wear gloves/protective clothing/eye protection/face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

#### Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

# Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values)

# Exposure limits: None

# Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

# Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

	Section 11. Toxicological information					
Information on the likely routes of exposure (in	halation, ingestion, skin and eye contact)					
May be fatal if swallowed and enters airways. Causes skin irritation. Causes serious eye irritation. May cause drowsiness or dizziness.						
Symptoms related to the physical, chemical and	toxicological characteristics					
Skin irritation, redness, stinging, pain; Eye irritation	ation, redness, tearing; Respiratory tract irritation, coughing, shortness of breath, dizziness,					
drowsiness, nausea and headaches.						
Delayed and immediate effects (chronic effects f	from short-term and long-term exposure)					
Skin Sensitization – No data available;						
Respiratory Sensitization – No data available;						
Germ Cell Mutagenicity – No data available;						
Carcinogenicity - No ingredient listed by IARC, A	CGIH, NTP or OSHA;					
Reproductive Toxicity – No data available;						
Specific Target Organ Toxicity — Single Exposure						
Specific Target Organ Toxicity — Repeated Expos	sure – No data available;					
Aspiration Hazard – Possible;						
Health Hazards Not Otherwise Classified - No dat						
Numerical measures of toxicity (ATE; LD <sub>50</sub> & I	LC50)					
None						
ATE not available in this document.
