

SAFETY DATA SHEET (SDS)

Section 1. Identification						
Product identifier PRO-1 5W-30						
Other means of identification 510						
Recommended use and restrictions on use 100 % SYNTHETIC MOTOR OIL						
Initial supplier in	dentifier	PROLAB TECHNOLUB INC. 4531 RUE		INES, (QUEBEC), G6H 2J1,		
		CANADA TEL. (418) 423-2777 FAX : (418)				
Emergency telep	hone num		24 hour number 613-996-6666			
Section 2. Hazard identification						
		s product (name of the category or subcategory	of the hazard class)			
NOT REGULATI						
	nents (syn	nbols, signal words, hazard statements and prec	autionary statements of the categor	ry/subcategory)		
None						
Other hazards ki	nown	None Section 2 Composition/inform	notion on incudionts			
Chamical name (Section 3. Composition/inform	CAS number or other	Concentration (0^{\prime})		
Chemical name (common	name/synonyms)	CAS number or other	Concentration (%)		
None		Section 4 First aid				
Inhalation	IE INILA	Section 4. First-aid LED: Remove person to fresh air and keep comfor		you fool upwell		
Ingestion		LLOWED: Immediately call a doctor. DO NOT I				
ingestion		osing consciousness, or is unconscious or convulsin				
		If vomiting occurs naturally, have victim lean for		. Have vietnin armik two glasses		
Skin contact		ritation occurs: Get medical attention. Rinse skin v				
Eye contact		ES, Rinse cautiously with water for several minute		resent and easy to do. Continue		
·		If eye irritation persists: Get medical attention.		,		
Most important s	symptoms	s and effects (acute or delayed) Transient ey	ye/skin irritation.			
Indication of imr	nediate m	edical attention/special treatment In all cases,	, call a doctor. Do not forget this docu	iment.		
		Section 5. Fire-fighti				
		ardous product (hazardous combustion produc	ets)			
		tant/toxic gases and fumes.				
		tinguishing media				
		lioxide, chemical powder agent and appropriate for	am to extinguish surrounding product	S		
		ent and precautions for fire-fighters				
		c smoke and fumes may be generated. Do not enter				
		f-contained breathing apparatus with full facepiece. ea if it can be done without risk. Water spray may b				
wove containers in	Iom me ar			is exposed to near and mame.		
Section 6. Accidental release measures						
Personal precautions, protective equipment and emergency procedures Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should						
			ed by trained personner only. An pers	shis dealing white clean up should		
wear the appropriate protective equipment (See Section 8). Methods and materials for containment and cleaning up						
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then						
		er for later disposal (see Section 13). Contaminated				
Notify the appropr	riate author	rities as required.				
		Section 7. Handling	and storage			
Precautions for s						
		hing/eye protection/face protection.				
Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene						
measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers						
for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with every skin and clothing. Keep away from heat sparks and flame. Avoid generating high concentrations of dusts vapours or mists. Keep						
contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to						
Section 8.						
Conditions for safe storage, including any incompatibilities						
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10).						
Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of						
	obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.					

Section 8. Exposure controls/Personal pro	rotection
-------------------------------------------	-----------

Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: None

Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

contaminated work clothing before re-use.	1 1 1 /				
Section 9. Physical and chemical properties					
Appearance, physical state/colour Brown liquid	Vapour pressure Not available				
Odour Oil	Vapour density Not available				
Odour threshold Not available	Relative density 0.8581				
pH Not available	Solubility Not available				
Melting/freezing point -46°C	Partition coefficient - n-octanol/water Not available				
Initial boiling point/range Not available	Auto-ignition temperature Not available				
Flash point> 230 °C	Decomposition temperature Not available				
Evaporation rate Not available	Viscosity 58.03 cSt @ 40°C				
Flammability (solids and gases) Not available	VOC Not available				
Upper and lower flammability/explosive limits Not available	Other None known				
Section 10. Stability and reactivity					
Reactivity					
Does not react under the recommended storage and handling conditions prescribed.					
Chemical stability					
Stable under the recommended storage and handling conditions prescribed.					
Possibility of hazardous reactions					
None known.					
Conditions to avoid (static discharge, shock or vibration)					
None known.					
Incompatible materials					
Oxidizing materials; etc.					
Hazardous decomposition products					
None known					
Section 11. Toxicolog	ical information				
Information on the likely routes of exposure (inhalation, ingestion, skin					
May cause transient eye/skin irritation.	• /				
Symptoms related to the physical, chemical and toxicological characteri	stics				
Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing.					
Delayed and immediate effects (chronic effects from short-term and long	g-term exposure)				
Skin Sensitization – No data available;					
Respiratory Sensitization – No data available;					
Germ Cell Mutagenicity – No data available;					
Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA;					
Reproductive Toxicity – No data available;					
Specific Target Organ Toxicity — Single Exposure – No data available;					
Specific Target Organ Toxicity — Repeated Exposure – No data available;					
Aspiration Hazard – No data available;					
Health Hazards Not Otherwise Classified – No data available;					
Numerical measures of toxicity (ATE; LD50 & LC50)					
None					
ATE not available in this document.					
Section 12. Ecological information					
Ecotoxicity (aquatic and terrestrial information)					
No data available for the product.					
Persistence and degradability No data available					
Bioaccumulative potential No data available					
Mobility in soil No data available					
Other adverse effects No data available					

	Section 13. Disposal considerations				
Information on	safe handling for disposal/methods of disposal/contaminated packaging				
Dispose of contents/container into safe container in accordance with local, regional or national regulations.					
•	Section 14. Transport information				
UN number: Pr	roper shipping name; Class(es); Packing group (PG) of the TDG Regulations				
NOT REGULAT					
	roper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)				
NOT REGULA					
	roper shipping name; Class(es); Packing group (PG) of the IATA (air)				
NOT REGULAT					
Special precaut	tions (transport/conveyance) None				
Environmental hazards (IMDG or other) None					
Bulk transport (usually more than 450 L in capacity) Possible					
	Section 15. Regulatory information				
Safety/health C	canadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in accordance				
·	with the hazard criteria of the Hazardous Products Regulations (HPR).				
Environmental	Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL				
	nvironmental outside regulations specifics				
United States OS	SHA information: This product is regulated according to OSHA (29 CFR).				
United States EF	PA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.				
United States TC	CSA information: Refer to the ingredients listed in Section 3.				
National Fire Pro	otection Association (NFPA):				
HEALTH: 0	FLAMMABILITY: 1 INSTABILITY: 0 SPECIAL HAZARDS: Refer to Section 2 & 3.				
	LE: $0 = Minimal$ $1 = Slight$ $2 = Moderate$ $3 = Serious$ $4 = Severe$				
California Propo	sition 65: This product may contain traces of a material known to the State of California to cause cancer or other reproductive harm.
