

SAFETY DATA SHEET (SDS)

Section 1. Identification					
Product identifier PRO-TRANS 10W-30					
Other means of identification 519					
Recommended use and restrictions on use SYNTHETIC TRANSHYDRAULIC LUBRICANT					
Initial supplier identifier PROLAB TECHNOLUB INC. 4531 RUE INDUSTRIELLE, THETFORD MINES, (QUEBEC), G6H 2J1,					
	CANADA TEL. (418) 423-2777 FAX : (
Emergency telep		EC 24 hour number 613-996-6666			
	Section 2. Hazar				
	hazardous product (name of the category or subcate	ory of the hazard class)			
NOT REGULAT					
Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)					
None					
Other hazards k		n ,• • • •			
	Section 3. Composition/in				
	(common name/synonyms)	CAS number or other	Concentration (%)		
White mineral oil		8042-47-5	< 3		
	Section 4. First				
Inhalation	IF INHALED: Remove person to fresh air and keep co				
Ingestion	IF SWALLOWED: Immediately call a doctor. DO N				
	rapidly losing consciousness, or is unconscious or conv of water. If vomiting occurs naturally, have victim lear		r. Have victim drink two glasses		
Skin contact	If skin irritation occurs: Get medical attention. Rinse s				
Eye contact	IF IN EYES, Rinse cautiously with water for several m		present and easy to do. Continue		
Eye contact	rinsing. If eye irritation persists: Get medical attention		resent and easy to do. Continue		
Most important		nt eye irritation.			
	mediate medical attention/special treatment In all c		ument.		
	Section 5. Fire-fi				
Specific hazards	of the hazardous product (hazardous combustion pr				
	d other irritant/toxic gases and fumes.				
	uitable extinguishing media				
	e carbon dioxide, chemical powder agent and appropriate	e foam to extinguish surrounding produc	ts.		
Special protectiv	e equipment and precautions for fire-fighters				
During a fire, irrit	tating/toxic smoke and fumes may be generated. Do not	enter fire area without proper protection.	Firefighters should wear proper		
	ent and self-contained breathing apparatus with full facep				
Move containers f	rom fire area if it can be done without risk. Water spray r		ns exposed to heat and flame.		
	Section 6. Accident				
	tions, protective equipment and emergency procedur				
	area until completion of clean-up. Ensure clean-up is con	ducted by trained personnel only. All pers	ons dealing with clean-up should		
	ate protective equipment (See Section 8).				
Methods and materials for containment and cleaning up					
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product.					
-		aled absorbent material may pose the sam	le nazarus as the spined product.		
Notify the appropriate authorities as required. Section 7. Handling and storage					
Precautions for s					
	ective clothing/eye protection/face protection.				
Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene					
measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers					
for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid					
contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep					
away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to					
Section 8.					
Conditions for safe storage, including any incompatibilities					
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of					
			i be clearly identified, clear of		
obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.					

Control parameters (biological limit values or exposure limit values and source of those values)					
Exposure limits: None					
Appropriate engineering controls					
Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure					
limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.					
Individual protection measures/personal protective equipment					
	e exposure limits. Use a NIOSH approved respirators if the exposure limits				
	ective clothing to prevent prolonged or repeated skin contact, must be worn				
	to prevent mists from entering the eyes. Wash hands/nails/face thoroughly				
	actice good personal hygiene after using this material. Remove and wash				
contaminated work clothing before re-use.	acter good personal hygiene alter doing this material remove and wash				
Section 9. Physical and chemical properties					
Appearance, physical state/colour Yellow liquid	Vapour pressure Not available				
Odour Oil	Vapour prosure Not available				
Odour threshold Not available	Relative density 0.8555				
pH Not available	Solubility Not available				
Melting/freezing point -43°C	Partition coefficient - n-octanol/water Not available				
Initial boiling point/rangeNot availableFlash point> 215 °C	Auto-ignition temperature Not available				
	Decomposition temperature Not available Viscosition 52.52 51.62 4000				
Evaporation rate Not available	Viscosity 53.52 cSt @ 40°C				
Flammability (solids and gases) Not available	VOC Not available				
Upper and lower flammability/explosive limits Not available	Other None known				
	ility and reactivity				
Reactivity					
Does not react under the recommended storage and handling conditions pr	rescribed.				
Chemical stability					
Stable under the recommended storage and handling conditions prescribed	1.				
Possibility of hazardous reactions					
None known.					
Conditions to avoid (static discharge, shock or vibration)					
None known.					
Incompatible materials					
Oxidizing materials; etc.					
Hazardous decomposition products					
None known					
Section 11. Toxice	ological information				
Information on the likely routes of exposure (inhalation, ingestion, s					
May cause transient eye irritation.					
Symptoms related to the physical, chemical and toxicological characteristics					
Eye irritation, redness, tearing.					
Delayed and immediate effects (chronic effects from short-term and long-term exposure)					
Skin Sensitization – No data available:					
Respiratory Sensitization – No data available;					
Germ Cell Mutagenicity – No data available;					
Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA;					
Reproductive Toxicity – No data available;					
Specific Target Organ Toxicity — Single Exposure – No data available;					
Specific Target Organ Toxicity — Repeated Exposure – No data available;					
Aspiration Hazard – No data available;					
Health Hazards Not Otherwise Classified – No data available;					
Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)					
None					
ATE not available in this document.					
Section 12. Ecological information					
Ecotoxicity (aquatic and terrestrial information)					
No data available for the product.					
Persistence and degradability No data available					
Bioaccumulative potential No data available					
Mability in soil No data available					

Section 8. Exposure controls/Personal protection

Mobility in soilNo data availableOther adverse effectsNo data available

	Section 13. Disposal considerations			
Information on safe handling for disposal/methods of disposal/contaminated packaging				
Dispose of contents/container into safe container in accordance with local, regional or national regulations.				
Section 14. Transport information				
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations				
NOT REGULA				
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)				
NOT REGULA				
	roper shipping name; Class(es); Packing group (PG) of the IATA (air)			
NOT REGULA				
Special precautions (transport/conveyance) None				
Environmental hazards (IMDG or other) None				
Bulk transport (usually more than 450 L in capacity) Possible				
•	Section 15. Regulatory information			
Safety/health C	anadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in accordance			
	with the hazard criteria of the Hazardous Products Regulations (HPR).			
Environmental	Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL			
	nvironmental outside regulations specifics			
	SHA information: This product is regulated according to OSHA (29 CFR).			
	PA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.			
United States TCSA information: Refer to the ingredients listed in Section 3.				
National Fire Pre	otection Association (NFPA):			
HEALTH: 0	FLAMMABILITY: 1 INSTABILITY: 0 SPECIAL HAZARDS: Refer to Section 2 & 3.			
	LE: $0 = Minimal$ $1 = Slight$ $2 = Moderate$ $3 = Serious$ $4 = Severe$			
California Propo	sition 65: This product may contain traces of a material known to the State of California to cause cancer or other reproductive harm.
