

SAFETY DATA SHEET (SDS)

Section 1. Identification					
Product identifier SOLV-TEK					
Other means of i	dentification 785				
Recommended u	se and restrictions on use 100 % SYNTHETIC LUBRI	CANT FOR HYDRAULIC SYSTEMS	5		
Initial supplier id	lentifier PROLAB TECHNOLUB INC. 4531 RUE	INDUSTRIELLE, THETFORD M	INES, (QUEBEC), G6H 2J1,		
CANADA TEL. (418) 423-2777 FAX : (418) 423-7619					
Emergency telep		24 hour number 613-996-6666			
	Section 2. Hazard	dentification			
Classification of	hazardous product (name of the category or subcategor	v of the hazard class)			
NOT REGULAT					
Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)					
None			,		
Other hazards k	nown None				
Section 3. Composition/information on ingredients					
Chemical name (common name/synonyms)	CAS number or other	Concentration (%)		
None					
Tione	Section 4. First-ai				
Inhalation			ou feel unwell		
Ingestion	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell. IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is				
ingestion					
	rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.				
Skin contact	If skin irritation occurs: Get medical attention. Rinse skin				
Eye contact	IF IN EYES, Rinse cautiously with water for several minu		resent and easy to do Continue		
Lyccontact	rinsing. If eye irritation persists: Get medical attention.	tes (5 10). Remove contact lenses, il p	resent and easy to do. Continue		
Most important		eye irritation.			
	nediate medical attention/special treatment In all case		iment.		
	Section 5. Fire-fight				
Specific hazards	of the hazardous product (hazardous combustion produ				
Carbon oxides an	d other irritant/toxic gases and fumes.				
Suitable and unsuitable extinguishing media					
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products. Special protective equipment and precautions for fire-fighters					
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper					
protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans.					
	rom fire area if it can be done without risk. Water spray may				
	Section 6. Accidental		is exposed to near and manie.		
Personal precaut	tions, protective equipment and emergency procedures	cicuse incusures			
		ted by trained personnel only. All perso	ons dealing with clean-up should		
Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).					
Methods and materials for containment and cleaning up					
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then					
	a container for later disposal (see Section 13). Contaminate				
-	riate authorities as required.				
	Section 7. Handling	and storage			
Precautions for safe handling					
	ective clothing/eye protection/face protection.				
Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene					
measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers					
for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid					
contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep					
away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to					
Section 8.					
Conditions for safe storage, including any incompatibilities					
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10).					
Inspect all incom	ing containers to make sure they are properly labelled an	nd not damaged. Storage area should	be clearly identified, clear of		
obstruction and ac	ccessible only to trained personnel. Inspect periodically for	damage or leaks.			

Section 8. Exposure control					
Control parameters (biological limit values or exposure limit values and source of those values)					
Exposure limits: None					
Appropriate engineering controls					
Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure					
limits. Make emergency eyewash stations, safety/quick-drench showers, and					
Individual protection measures/personal protective equipment					
Respiratory protection is required if the concentrations are higher than the exp	posure limits. Use a N	OSH approved respirators if the exposure limits			
are unknown. Chemically protective gloves (impervious), and other protective					
during all handling operations. Wear protective chemical splash goggles to p	revent mists from ente	ring the eyes. Wash hands/nails/face thoroughly			
after handling. Do not eat, drink or smoke when using this product. Practic					
contaminated work clothing before re-use.					
Section 9. Physical and c	hemical properties				
Appearance, physical state/colour Amber liquid	Vapour pressure	< 2 mm Hg			
Odour mild citrus odor	Vapour density	>1 (Air=1)			
Odour threshold Not available	Relative density	0.88			
pH 6,5-7,5		zailable			
Melting/freezing point Not available	Partition coefficien				
Initial boiling point/range Not available		Auto-ignition temperature Not available			
Flash point ≥130 °C	Decomposition tem				
Evaporation rate <1 (Butyl Acetate=1)	Viscosity Not ava				
Flammability (solids and gases) Not available	VOC <2%				
Upper and lower flammability/explosive limits Not available	Other None know	37n			
Section 10. Stability		W11			
Reactivity					
Does not react under the recommended storage and handling conditions prescri	ibed				
Chemical stability	ideu.				
Stable under the recommended storage and handling conditions prescribed.					
Possibility of hazardous reactions					
None known.					
Conditions to avoid (static discharge, shock or vibration)					
None known.					
Incompatible materials					
Oxidizing materials; etc.					
Hazardous decomposition products					
None known	• 1• 0 /•				
Section 11. Toxicolog					
Information on the likely routes of exposure (inhalation, ingestion, skin a	and eye contact)				
May cause transient eye irritation.					
Symptoms related to the physical, chemical and toxicological characteristics					
Eye irritation, redness, tearing.					
Delayed and immediate effects (chronic effects from short-term and long	g-term exposure)				
Skin Sensitization – No data available;					
Respiratory Sensitization – No data available;					
Germ Cell Mutagenicity – No data available;					
Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA;					
Reproductive Toxicity – No data available;					
Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available;					
Aspiration Hazard – No data available;					
Health Hazards Not Otherwise Classified – No data available;					
Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)					
None					
ATE not available in this document.					
Section 12. Ecological information					
Ecotoxicity (aquatic and terrestrial information)					
No data available for the product.					
Persistence and degradability No data available					
Bioaccumulative potential No data available					
Mobility in soil No data available					

Other adverse effects No data available

	Section 13. Disposal considerations			
Information on safe handling for disposal/methods of disposal/contaminated packaging				
Dispose of contents/container into safe container in accordance with local, regional or national regulations.				
Section 14. Transport information				
UN number: Pr	roper shipping name; Class(es); Packing group (PG) of the TDG Regulations			
NOT REGULAT				
	roper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)			
NOT REGULAT				
	roper shipping name; Class(es); Packing group (PG) of the IATA (air)			
NOT REGULAT				
Special precautions (transport/conveyance) None				
Environmental hazards (IMDG or other) None				
	(usually more than 450 L in capacity) Possible			
Section 15. Regulatory information				
Safety/health C	anadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in accordance			
Salety/licatil C	with the hazard criteria of the Hazardous Products Regulations (HPR).			
Environmental	Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL			
	nvironmental outside regulations specifics			
	SHA information: This product is regulated according to OSHA (29 CFR).			
United States FF	PA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.			
United States TCSA information: Refer to the ingredients listed in Section 3.				
	otection Association (NFPA):			
HEALTH: 0	FLAMMABILITY: 1 INSTABILITY: 0 SPECIAL HAZARDS: Refer to Section 2 & 3.			
	LE: $0 = Minimal$ $1 = Slight$ $2 = Moderate$ $3 = Serious$ $4 = Severe$			
	sition 65: This product may contain traces of a material known to the State of California to cause cancer or other reproductive harm.
