| Inhalation<br>Ingestion  | IF INHALED: Remove person to fresh air and keep comf<br>IF SWALLOWED: Rinse mouth. Do NOT induce vor  |   |                             |  |  |
| ingestion  | consciousness, or is unconscious or convulsing. Rinse mo  |   |                             |  |  |
|  | vomiting occurs naturally, have victim lean forward to red  |   |                             |  |  |
| Skin contact   | IF ON SKIN (or hair): Take off immediately all con  |   |                             |  |  |
| Shin contact   | contaminated clothing before reuse.   | anniace croaning. Tenise skin with        | water (15 26 minutes): wash |  |  |
| Eye contact  | IF IN EYES, Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to do. Continue rinsing.                    |   |                             |  |  |
| Most important   |   | vere skin burns and eye damage.           |                             |  |  |
|  |   | s, call a doctor. Do not forget this doct | ument.                      |  |  |
| Section 5. Fire-fighting measures  |   |   |                             |  |  |
| Specific hazards of the hazardous product (hazardous combustion products)  |   |   |                             |  |  |
| Carbon oxides and other irritant/toxic gases and fumes.  |   |   |                             |  |  |
| Suitable and unsuitable extinguishing media  |   |   |                             |  |  |
| In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.  |   |   |                             |  |  |
| Special protective equipment and precautions for fire-fighters   |   |   |                             |  |  |
| During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.   |   |   |                             |  |  |

# Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

Absorb spillage to prevent material-damage. Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).

## Methods and materials for containment and cleaning up

Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

## Section 7. Handling and storage

# Precautions for safe handling

May be corrosive to metals. Keep only in original packaging. Wear protective gloves/ protective clothing/ eye protection/ face protection. Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

## Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

# Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: CAS 111-76-2 ACGIH-TWA 20 ppm & PEL-TWA 50 ppm; CAS 1310-73-2 ACGIH-TWA 2 mg/m<sup>3</sup> (ceiling) & PEL-TWA 2 mg/m<sup>3</sup>

#### **Appropriate engineering controls**

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

#### Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

| Section 9. Physical and chemical properties  |   |  |  |  |
|--|---|--|--|--|
| Appearance, physical state/colour Yellow liquid                                    | Vapour pressure     Not available                     |  |  |  |
| Odour Charateristic  | apour density     Not available                       |  |  |  |
| Odour threshold Not available  | Relative density 1                                    |  |  |  |
| <b>pH</b> 12   | Solubility Soluble                                    |  |  |  |
| Melting/freezing point 0°C   | Partition coefficient - n-octanol/water Not available |  |  |  |
| Initial boiling point/range Not available  | Auto-ignition temperature Not available               |  |  |  |
| Flash point> 93°CDecomposition temperatureNot available                            |   |  |  |  |
| Evaporation rate Not available   | Viscosity 2.3 cSt @ 40°C                              |  |  |  |
| Flammability (solids and gases)     Not available                                  | VOC Not available                                     |  |  |  |
| Upper and lower flammability/explosive limits Not available                        | Other None known                                      |  |  |  |
| Section 10. Stability and reactivity   |   |  |  |  |
| Reactivity   |   |  |  |  |
| Does not react under the recommended storage and handling conditions prescribed.   |   |  |  |  |
| Chemical stability   |   |  |  |  |
| Stable under the recommended storage and handling conditions prescribed.           |   |  |  |  |
| Possibility of hazardous reactions   |   |  |  |  |
| When mixed with incompatible materials.  |   |  |  |  |
| Conditions to avoid (static discharge, shock or vibration)                         |   |  |  |  |
| Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. |   |  |  |  |
| Incompatible materials   |   |  |  |  |
| Oxidizing materials; acids; etc.   |   |  |  |  |
| Hazardous decomposition products   |   |  |  |  |
| None known   |   |  |  |  |

| Section 11. Toxicological information  |  |  |  |  |
|--|--|--|--|--|
| Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)   |  |  |  |  |
| Causes severe skin burns and eye damage.   |  |  |  |  |
| Symptoms related to the physical, chemical and toxicological characteristics   |  |  |  |  |
| Skin burn, redness, stinging, pain; Eye burn, redness, tearing; Digestive tract burn; Respiratory tract burn, coughing, shortness of breath, dizziness,  |  |  |  |  |
| drowsiness, nausea and headaches.  |  |  |  |  |
| Delayed and immediate effects (chronic effects from short-term and long-term exposure)   |  |  |  |  |
| Skin Sensitization – No data available;  |  |  |  |  |
| Respiratory Sensitization – No data available;   |  |  |  |  |
| Germ Cell Mutagenicity – No data available;  |  |  |  |  |
| Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA Reproductive Toxicity – No data available;  |  |  |  |  |
| Specific Target Organ Toxicity — Single Exposure – No data available;  |  |  |  |  |
| Specific Target Organ Toxicity — Repeated Exposure – No data available;  |  |  |  |  |
| Aspiration Hazard – No data available;   |  |  |  |  |
| Health Hazards Not Otherwise Classified – No data available.   |  |  |  |  |
| Numerical measures of toxicity (ATE; LD <sub>50</sub> & LC <sub>50</sub> )   |  |  |  |  |
| CAS 9036-19-5 LD <sub>50</sub> Oral, Rat 4190 mg/kg; CAS 111-76-2 LD <sub>50</sub> Oral, Rat 917 mg/kg; LC <sub>50</sub> Inhalation, Rat (4 h) 450 ppm; LD <sub>50</sub> Dermal, Rabbit                                      |  |  |  |  |
| 220 mg/kg;   |  |  |  |  |
| ATE not available in this document.  |  |  |  |  |
| Section 12. Ecological information   |  |  |  |  |
| Ecotoxicity (aquatic and terrestrial information) No data available  |  |  |  |  |
| Persistence and degradability No data available  |  |  |  |  |
| Bioaccumulative potential No bioaccumulation is to be expected.  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
| Other adverse effects No data available  |  |  |  |  |
| Section 13. Disposal considerations  |  |  |  |  |
| Information on safe handling for disposal/methods of disposal/contaminated packaging   |  |  |  |  |
| Dispose of contents/container into safe container in accordance with local, regional or national regulations.  |  |  |  |  |
| Section 14. Transport information  |  |  |  |  |
| UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations  |  |  |  |  |
| UN1824; SODIUM HYDROXIDE SOLUTION; CLASS 8; PG III   |  |  |  |  |
| UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)  |  |  |  |  |
| UN1824; SODIUM HYDROXIDE SOLUTION; CLASS 8; PG III   |  |  |  |  |
| UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)   |  |  |  |  |
| UN1824; SODIUM HYDROXIDE SOLUTION; CLASS 8; PG III   |  |  |  |  |
| <b>Special precautions (transport/conveyance)</b> May also be shipped as a LIMITED QUANTITY in accordance with TDG.  |  |  |  |  |
| Environmental hazards (IMDG or other) None   |  |  |  |  |
| Bulk transport (usually more than 450 L in capacity) Possible  |  |  |  |  |
| Section 15. Regulatory information   |  |  |  |  |
|  |  |  |  |  |
| Safety/health Canadian regulations specifics     Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR). |  |  |  |  |
| Environmental Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL   |  |  |  |  |
| Safety/health/environmental outside regulations specifics  |  |  |  |  |
| United States OSHA information: This product is regulated according to OSHA (29 CFR).  |  |  |  |  |
| United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.   |  |  |  |  |
| United States TCSA information: Refer to the ingredients listed in Section 3.  |  |  |  |  |
| National Fire Protection Association (NFPA):   |  |  |  |  |
| HEALTH: 3 FLAMMABILITY: 1 INSTABILITY: 0 SPECIAL HAZARDS: Refer to Section 2 & 3.  |  |  |  |  |
| HAZARD SCALE: $0 = Minimal$ $1 = Slight$ $2 = Moderate$ $3 = Serious$ $4 = Severe$   |  |  |  |  |

HAZARD SCALE: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = SevereCalifornia Proposition 65: This product may contain traces of a material known to the State of California to cause cancer or other reproductive harm.
